Forecast for Friday 19 May 2023

Weather: Overnight mist and fog for some ranges will lift and clear this morning, then mainly dry with bright or sunny spells throughout the day. Feeling quite warm in the sunshine at times. A clear and dry evening expected to follow.

Chance of cloud-free hill tops above 800m: 90%, early low cloud may affect western fells.

Low cloud and visibility: In the west there may be scattered low cloud above 600m in the morning, this will lift and clear with all summits expected to be clear for much of the day. Visibility will be very good at all levels.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Quite a warm, humid day at lower levels but still quite chilly at height at first this morning.

Forecast for Saturday 20 May 2023

Weather: A dry and bright start to the day, perhaps more cloud around northern Fells but bright spells for all areas. Some spots of evening rain are possible with more cloud later.

Maximum wind: Light and variable 5mph.

Chance of cloud-free hill tops above 800m: 95%, a few patches of early low cloud.

Low cloud and visibility: Some high level cloud but all fell tops expected to be clear with good or very good visibility throughout.

Temperature: **Valleys:** Plus 9 rising to 17 Celsius.
At 800m: Plus 6 rising to 12 Celsius.
Freezing level: Above all summits.
